PUBLICATIONS AND PRESENTATIONS PUBLISHED IN ABSTRACT FORM:

1. Finite Difference Numerical Methods for Boundary Control Problems Governed by Hyperbolic Partial Differential Equations, (with G Chen, Q Zheng & M Coleman), Proceedings on the Workshop on Applications of Distributed Parameter System Theory to the Control of Large Space Structures - NASA Jet Propulsion Laboratory (1983), p447-495
2. An Initial Value Control Problem for the Burger's Equation, (with G Chen & H K Wang) Lecture Notes in Control and Information Sciences, (75) - Distributed Parameter Systems (1984), p52-76

   Records 10 citations as of May 2020
3. An Initial Value Control Problem for the Burger's Equations, Ph.D. Thesis (1984)

   Records 11 citations as of May 2020
4. A Study of Numerical Methods for Solving Initial Value Problems, (with L Menaka Lelwala) Annual Sessions of the Sri Lanka Association for the Advancement of Science - (December 1988)
5. Computer Education, Issues, Policy & Strategies - Proceedings of the UNESCO Workshop on The Use of Computers in the Teaching of Science and Mathematics in Asia and the Pacific, RMIT, Melbourne, Australia - (November 1989)
6. Numerical Solution of Nonlinear Algebraic Equations in the Absence of the Derivative, Proceedings of the Annual Conference of the Australian Mathematical Society held in the University of Western Australia, Perth, Australia - (July 1992)
7. Application of Sumudu Transform to Partial Differential Equations, **International Journal for Mathematical Education in Science and Technology ,** Vol. 25, No. 2,(1994) 277-283

   Records 120 citations as of May 2020
8. Newton's Root Finding Algorithm in the Absence of the Derivative, Proceedings of the Golden Jubilee Sessions of the Sri Lanka Association for the Advancement of Science, November 1994, E1-21, p 209
9. Numerical Solution of Non-linear Equations in the Absence of a Derivative,

   Journal of the National Science Council of Sri Lanka –24(4) (1996) 309-318

   Records 02 citations as of May 2020
10. Finite Difference Newton's Method for Functions of Two Variables, with Mr. H K G de Z Amarasekera, Proceedings of the Annual Sessions of the Sri Lanka Association for the Advancement of Science (November 1996), E1-02, p 158
11. Sumudu Transform and Laplace Transform: Reply, **International Journal for Mathematical Education in Science and Technology,** Vol. 28, (1997) 159-160

    Records 11 citations as of May 2020

12. A Complex Inversion Formula for Sumudu Transform, **International Journal for Mathematical Education in Science and Technology,** VOL. 29. NO. 4(1998) 618-621

Records 71 citations as of May 2020

13. A Variance of Newton's Method with Accelerated Third Order Convergence (with Mr. T G I Fernando) **Applied Mathematics Letters** 13(2000) 87-93

Records 887 citations as of May 2020

14. Finite Difference Newton's Method for Systems of Non-linear Equations, (with H K G de Z Amarasekara) **Mathematical Engineering in Industry**, (Vol.7, No.4 (1999) 433-440)

15. Improved Newton's Method for Finding Roots of a Non-linear Equations (with T G I Fernando) Proceedings of the First Annual Research Secessions, USJ pp 225-235, (1998)

16. Approximating Roots of Unknown Functions (with H K G de Z Amerasekera) Proceedings of the First Annual Research Sessions, USJ, pp 236-246 (1998)

17. Estimating Parameters of a Mixture of Two Exponential Distributions (with S D L Geeganage & P Dias), Proceedings of the Research Sessions pp 247-263, USJ (1998)

18. Approximating Roots of Unknown Functions (with H K G de Z Amarasekera) Annual Sessions of the Sri Lanka Association for the Advancement of Science (December 1997), p 308 **(E1-21)**

19. Improved Newton Method for Finding Roots of Non-linear Equation (with T G I Fernando; Annual Sessions of the Sri Lanka Association for the Advancement of Science (December 1997), p 309 **(E1-22)**

20. Estimating Parameters of a Mixture of Two Exponential Distributions (with P Dias & S L D Geeganage), Annual Sessions of the S L Association for the Advancement of Sci. (December 1997), p 310 **(E1-23)**

21. Annual and Seasonal Trends in Rainfall in Sri Lanka (with A G C Seneviratne, W L Sumathipala & P Dias), Annual Sessions of the S L Association for the Advancement of Sci. (Dec. 1997), p 322 **(E1-35)**

22. Approximating Roots of Unknown Functions (with H K G de Z Amarasekera) Research Sessions of the Faculty of Graduate Studies, USJ, (March 1998), p 27

23. Improved Newton Method for Finding Roots of a Non-linear Equation (with T G I Fernando) Research Sessions 1998 of the Faculty of graduate Studies, USJ, (March 1998), p 22-26

Records 01 citations as of May 2020

24. Estimating Parameters of a Mixture of Two Exponential Distributions, (with P Dias & S L D Geeganage), Research Sessions 1998 of the Faculty of Graduate Studies, USJ (March 1998), p 30

25. Third Order Convergence of Improved Newton's Method for Roots of Non-linear Equations (with T G I Fernando), Annual Sessions of SLAAS (December 1998), p 252**(E1-31)**

26. Approximating Roots of Unknown Functions of Two variables (with H K G de Z Amarasekera. Annual Sessions of the S L Association for the Advancement of Sci, (December 1998), p253 **(E1-32)**

27. Study of Network Adaptive Routing for Circuit Switched Networks Using Computer Simulation (with M B Herath, J A K S Jayesinghe, E A T A Edirisooriya), Annual Sessions of the Sri Lanka Association for the Advancement of Science (December 1998), p 178**(C-54)**

28. Investigation of a Mortality Experience of a Sri Lankan Life Insurance Company, (with B M K N Dissanayake, P Dias & B M S G Banneheke), An. Sessions SLAAS (December 1998), p 352 **(F-25)**

29. Finite Difference Newton's method for functions of two variables, Ceylon Journal of Science, Physical Sciences, 5(1),85-95)(1998), (with H K G de Z Amarasekera)

30. Software package consisting of Efficient techniques for Numerical Root Finding, Annual Research Sessions, Faculty of Graduate Studies, USJ (October 1999) Published in Abstract form (with H K G de Z Amarasekera & G K Watugala)

31. Second Order convergence of Finite Difference Newton's method for function of several variables, Annual Sessions of SLAAS, December 1999 pp (with H K G de Z Amarasekera & G K Watugala)

32. Computer based management system for Goods and Services tax administration in Sri Lanka, Annual Sessions of SLAAS, December 1999. (With R A S P Ranaweera et al)

33. A Finite Element Based Topographic Profile Modeling Technique for Propagation Path – Loss Calculation in VHF Electric Field Strength Prediction, Journal of IEEE (2002) (with P S Panawennege, G T F de Silva & W P A M Wijesinghe)

34. Third Order Convergent Gaussian Quadrature Newton's Method, SLAAS Annual Sessions 2002
(with G H J Lanel, G K Watugala & H K G de Z Amarasekara)

35. Degree Reduction of Bezier Curves, **Fiftieth anniversary academic sessions**, USJ; (2009) (with M D L Salgado, and T G I Fernando)
Adjudged the **Best research paper of the Applied Science Faculty.**

36. An optimal production process to maximize profit of a tea factory, Fiftieth anniversary academic sessions, USJ; (2009); (With M.B.Y. Perera & D.D. Ananda Gamini) (2009)

37. Review of the citations of the research paper: A variant of Newton's method with accelerated third-order convergence; Proceedings of the Sri Lanka Association for the Advancement of Science (2011) (with PCP Peiris and T G I Fernando)

38. Invertibility of Modified Buffon Transformation matrices; Proceedings of the Sri Lanka Association for the Advancement of Science (2011) (with C D B Hewa)

39. Traveling Tourist Problem for Selected Destinations in Sri Lanka; Sri Lanka Association for the Advancement of Sciences (2012) (with Seneviratna, DMKN, Lanel GHJ and Liyanage M)

40. Analysis of the University of Sri Jayewardenepura students' academic performance according to gender and the Z-score at the Advanced level, Sri Lanka Association for the Advancement of Sciences (2013) (with N Chathuranga Vidanage & B M S G Banneheka)

41. Improved Newton method to solve systems of nonlinear equations, Sri Lanka Association for the Advancement of Sciences (2014) (with H P S Nishani, T G I Fernando & L. Menaka Liyanage

42. Finding Roots of a Nonlinear Equation Using Bat-Inspired Algorithm, Proceedings of the 70th Annual Sessions of the Sri Lanka Association for the Advancement of Science, 2014.

43. Finite Difference Weerakoon-Fernando Method to Solve Nonlinear Equations without using Derivatives, Sri Lanka Association for the Advancement of Science (2017) (with Shadi Heenatigala & T G I Fernando) Adjudged the best presentation

44. A modified firefly algorithm to solve univariate nonlinear equations with complex roots. Advances in ICT for Emerging Regions (ICTer), 2015 (with MKA Ariyaratne, TGI Fernando)
Records 04 citations as of May 2020

45. Preventive maintenance schedule for rubber tyred gantry cranes in ZPMC Lanka (Pvt) Ltd, Uni Alliance (2016) (with K.D.P.M Kariyawasam, R. Sanjeewa and M.T.S De Silva)
Adjudged the best presenter in the Physical Science Section.

46. A self-tuning Firefly algorithm to tune the parameters of Ant Colony System (ACSFA); arXiv preprint arXiv:1610.08222 (2016); (with MKA Ariyaratne & TGI Fernando)
Records 01 citations as of May 2020

47. A self-tuning modified firefly algorithm to solve univariate nonlinear equations with complex roots, Evolutionary Computation (CEC), 2016 IEEE Congress,1477-1484(with MKA

Ariyaratne & TGI Fernand **Records 07 citations as of May 2020**

http://ieeexplore.ieee.org/stamp/stamp.jsp?tp=&arnumber=7743964&isnumber=7743769

48. A Modified Firefly Algorithm to Solve Systems of Nonlinear Equations, Proceedings of the 73rd Annual Sessions of the Sri Lanka Association for the Advancement of Science, 2017.

(with M K A Ariyaratne and T G I Fernando) Records **02 citations as of May 2020**

49. A self-tuning firefly algorithm to tune the parameters of ant colony system. International Journal of Swarm Intelligence, 3(4):309331, 2018. doi: 10.1504/ijsi.2018.091415.

(with M.K.A. Ariyaratne and T.G.I. Fernando)

http://www.inderscience.com/info/inarticle.php?artid=91415

50. An Archived firefly Algorithm; A mathematical software to solve univariate nonlinear equations, The International Journal on Advances in ICT for Emerging Regions (ICTer), Vol 9, No 1, 2016

Special Issue. [Impact Factor: 0.7], [H Index = 8] (with M.K.A. Ariyaratne and T.G.I. Fernando)

http://journal.icter.org/index.php/ICTer/article/view/213/55.

51. Weerakoon-Fernando Method with accelerated third order convergence for systems of Nonlinear equations, International Journal of Mathematical Modelling and Numerical Optimisation ; Volume 8, Issue 3, pages 287-304; Inderscience Publishers (IE)

(with H P S Nishani, T G I Fernando & L Menaka Liyanage)

Records 02 citations as of May 2020

52. Solving systems of nonlinear equations using a modified firefly algorithm (MODFA), Swarm and Evolutionary Computation, Volume 48, 2019, Pages 72-92, (with M.K.A. Ariyaratne & T.G.I. Fernando) https://doi.org/10.1016/j.swevo.2019.03.010.

Online publication date: 29 March 2019. 2019 Elsevier (ISSN: 2210-6502) [Source Normalized

Impact per Paper (SNIP): 2.841] [SCImago Journal Rank (SJR): 1.278] with M.K.A. Ariyaratne &

T.G.I. Fernando) **Records 02 citations as of May 2020**

53. Finite Difference Weerakoon-Fernando Method to solve nonlinear equations without using Derivatives had been accepted for inclusion in the Future of Information and communications. Conference (FICC) 2019 which was held from 14-15 March 2019 in San Francisco. It was technically sponsored by IEEE. (with Shadi Heenatigala & TGI Fernando)

54. A Self-Tuning Algorithm to Approximate Roots of Systems of Nonlinear Equations Based on The Firefly Algorithm. International Journal of Swarm Intelligence, Inderscience Publishers (with M. K. A. Ariyaratne & T.G.I. Fernando) (2020)

55. A hybrid algorithm to solve multi-model optimization problems based on the particle swarm optimization algorithm with a modified firefly algorithm" accepted to be included in the Future Technologies Conference (FTC) 2020 scheduled from 5-6 November 2020 in Vancouver, Canada. (with M. K. A. Ariyaratne & T.G.I. Fernando)

(Submitted to be published) Finite Difference Weerakoon-Fernando Method to solve nonlinear equations without using derivatives" (with Shadi Heenatigala & T G I Fernando
