²*Institute/University's Affiliation, University, City, Country*

Email of the Corresponding Author

Italic (Font Size- 10/Centered)

Font Size 10-Centered

Please refer to this document to learn about the formatting of text. Use this template when preparing your abstract for UNI-IN-ALLIANCE 2025. The abstract must be submitted in MS Word format, strictly following the provided template and formatting instructions. Abstracts that deviate from these guidelines will be rejected. The abstract should not exceed 400 words and must be presented as a single paragraph with no figures, tables, or references. The body of the abstract should be written in Times New Roman, 12 pt, justified, with 1.15 line spacing and no indentation at the beginning of the paragraph. It should include a concise summary of the introduction, materials and methods, results, discussion, and conclusions, but without subheadings. The title of the abstract should be center-aligned, in UPPERCASE, bold, Times New Roman, 12 pt, with no line space above and one line space below. Author names should also be center-aligned, in Times New Roman, bold, 10 pt, written as Surname Initials (e.g., Perera A. B. C.), with the presenter's name underlined and the corresponding author marked with an asterisk (*). One line space should be left between the names and affiliations. Affiliations must be centered, italicised, Times New Roman, 10 pt, with no line space between affiliations and the email address of the corresponding author, which should also be in italics, 10 pt, and only one email address should be included. At the end of the abstract, include a list of maximum five keywords following the label **Keywords:** in italics, Times New Roman, 10 pt, separated by commas. Leave one line space above the keyword section. If applicable, include an Acknowledgement section immediately after the keywords, as a single sentence in italics, Times New Roman, 10 pt, indicating only the funding organization and grant number, leaving one line space above. Scientific names should follow a standard convention (e.g., *Rhizophora mangle*), with the genus and species italicized, and non-English or technical terms also in italics. Use British spelling throughout. Use SI units only, and do not mix complete spellings with abbreviations (e.g., $0.36 \pm 0.02 \text{ mg kg}^{-1}$).

Keywords: *Keywords should be in Italic format, Times New Roman, and 11 pt. and the first letter of the keyword should be capitalized, and up to five words. Keywords separated by a comma (,)*
